

How to use WeChat to bind to the square power grid

Will Weixin and WeChat be separated again?

This might lead to Weixin and WeChat being more separated entities in the future again. The company behind WeChat is Tencent, a Chinese multinational technology giant. The app's ecosystem has a large variety of functions and features like mini-apps.

How to connect with business partners on WeChat?

To connect with business partners go to their website and look for their WeChat ID, respectively the QR code or QQ number which is often the same as the WeChat ID. So, let's look at how this popular app is structured.

What is WeChat (Weixin)?

In case you haven't heard (we doubt it), WeChat (or Wēixìn in Chinese, meaning tiny message) is basically as synonymous with China as the Chinese wall, green tea, silk, and the spicy hot pot dish. Originally released in 2011 with two versions on different servers, (Weixin) served the Chinese market, and WeChat was for the international market.

How will 5G and AI Impact the power grid?

In the smart grid era, we are witnessing the in-depth integration of 5G and AI with power grids in more and more scenarios, including new energy grid connections, flexible large grid interconnection, multi-user supply-demand balancing, and interaction between information technologies and power systems.

How to add friends on WeChat?

Source: WeChat (Search) Click on the + to expand the menu. If new contacts send you a friend request, you will receive a notification on your phone. Activate the friends radar to find new contacts around you more easily. 1. Make online payments with WeChat Pay by linking credit cards and bank accounts to your Wallet.

Where can I Find my WeChat account information and settings?

Here, all account information and settings can be found. Settings: Here's an interesting feature. Go to General > WeChat Tools > Broadcast Messages. This allows you to send a message to all your contacts or selected contacts at once. China's second most popular search engine Sogou is integrated here to search outside the WeChat ecosystem.
