

Solar power generation mobile phone charging adapter

What is a solar phone battery charger?

Whether you're traveling, camping, or simply walking around, a solar phone battery charger provides an easy and environmentally-friendly solution. Solar phone battery chargers use the same technology as rooftop solar panels to charge your phone or other devices.

What are the different types of solar phone chargers?

There are two types of solar phone chargers: Direct solar chargers connect the solar panels to your phone, so the energy produced by the panels goes directly into your phone's battery. A battery bank solar charger doesn't get hooked up to your phone.

How much power does a solar phone charger use?

A charger between 10 and 15 watts of power is usually sufficient for charging one or maybe two phones. The wattage of a charger is the amount of solar electricity it can produce, so larger panels usually mean more wattage. There are two main types of solar phone chargers to keep an eye out for:

Where can I buy a solar cell phone charger?

Solar Rechargeable Lantern/Cell Phone Charger. 150 Lm. Built In Solar Panel, Hi-Vis Yellow Shop through a wide selection of Cell Phone Solar Chargers at Amazon.com. Free shipping and free returns on eligible items.

Are solar phone chargers a good idea?
